

VETFLASH!

Dear Member,

We received feedback today from the Chief Veterinary Officer, Dr Mike Modisane, following his consultation with the National Joint Operational and Intelligence Structure (NATJOINTS) regarding Animal Care. I will quote the contents of the email here:

“The reply we received is that that general “animal care (grooming) and welfare” are permitted activities in Table 1 Part A (1) of the Regulation, including for pets. Please note that general compliance of social distancing and others still have to be strictly adhered to”.

We urge our members and those who read this VetFlasht to continue to exercise care, diligence and professionalism in providing services.

Best regards,
Gert Steyn
Managing Director
