

VETFLASH!

Dear SAVVA Member,

More than eight weeks have now passed since South Africa embarked on a large-scale response to the Covid-19 pandemic. The impact of this response on all sectors and all spheres (health, societal, financial and emotional) will be measured by a plethora of research studies for many years to come.

SAVA wants to gain insight into the impact that the Covid-19 response has had on our members and use this information to guide future support to our members. The survey link below is focused on private veterinary practices and should be completed by 1 person in the practice.

Kindly note that we ask for the practice name and contact details, BUT it is not compulsory to provide it. We will not share any practice or contact detail with anyone and all data analysis and presentations will have these details removed. The contact details are to allow us the opportunity to further engage with a practice in order to enrich our understanding.

We look forward to sharing the results of the survey with you.

Herewith the link: <https://forms.gle/Cg1VMqT9Czpeqmx16>

This survey expires on the 2nd of June at 16:00.

Best regards,
Gert Steyn
Managing Director
